LONE STAR VALUATION GROUP

Real Estate Appraisal and Right-of-Way Consulting

Prepared for City of Lone Star Public Works and Transportation Department

Fictional Appraisal Summary | Parcel 14 | East Loop Road Expansion Project

---

February 5, 2026

Appraisal Summary
East Loop Road Expansion Project
Parcel 14 - 1428 East Braker Lane, Austin, Travis County, Texas
City Project No. ELP-2025-07

Prepared for:
City of Lone Star Public Works and Transportation Department
Right-of-Way Division
100 Civic Center Plaza
Lone Star, Texas 78701

Prepared by:
Lone Star Valuation Group
Attn: Diane K. Porter, MAI, State Certified General Real Estate Appraiser
310 West 7th Street, Suite 420
Austin, Texas 78701

This appraisal summary was prepared at the request of the City of Lone Star for right-of-way acquisition planning and negotiation purposes. It summarizes the appraiser's opinion of just compensation for the proposed acquisition affecting Parcel 14. This summary is fictional and created solely for Matter Layer testing.

Executive Valuation Summary

Owner of record	Ramirez Family Holdings, LLC
Property address	1428 East Braker Lane, Austin, Travis County, Texas 78753
Parcel	Parcel 14
Project	East Loop Road Expansion Project, City Project No. ELP-2025-07
Effective date of value	February 1, 2026
Date of report summary	February 5, 2026
Property type	Commercial frontage property improved with a small retail/service center and paved parking
Highest and best use before acquisition	Continued commercial retail/service use with redevelopment potential consistent with corridor commercial zoning
Acquisition type	Partial fee taking and temporary construction easement
Opinion of just compensation	**$425,000**

The appraiser's compensation conclusion is based on the value of the part acquired, damages to the remainder, and the temporary construction easement. The appraisal assumes that the proposed project will not permanently deny reasonable access to the remainder property, although one existing driveway is expected to be closed and one driveway is expected to be relocated.

Important limitation: this summary does not include the full appraisal work file, all comparable sale sheets, photographs, title documents, or engineering exhibits. It is intended to provide a concise valuation summary for negotiation and file review.

Property and Acquisition Description

Existing parent tract	Approximately 5.60 acres before acquisition
Existing improvements	One-story retail/service building of approximately 18,400 square feet, paved parking, pole signage, lighting, and related site improvements
Fee acquisition	Approximately 0.84 acres along the East Braker Lane frontage for permanent right-of-way
Temporary construction easement	Approximately 0.22 acres for driveway relocation, grading, sidewalk installation, and construction access
Remainder after fee acquisition	Approximately 4.76 acres, subject to temporary construction easement during construction period
Access changes described in plans	Existing Driveway B is expected to be closed. Existing Driveway A is expected to be relocated approximately 120 feet east. The appraiser assumes at least one commercially reasonable driveway will remain after construction.
Parking effect noted by appraiser	Appraiser estimates 9 parking spaces will be removed or reconfigured, with remaining parking sufficient for current observed occupancy. Owner correspondence has not yet been reviewed by the appraiser.

The proposed acquisition is for the widening and reconstruction of East Braker Lane as part of the East Loop Road Expansion Project. The project plans reviewed by the appraiser indicate additional travel lanes, sidewalks, drainage improvements, and utility relocations adjacent to the subject property.

The property owner has not provided an independent appraisal as of the date of this appraisal summary. The appraiser relied on the City's right-of-way map dated January 6, 2026; a parcel plat summary prepared by Lone Star Surveying, Inc.; Travis Central Appraisal District records; site inspection notes dated January 28, 2026; and market data available as of the effective date of value.

Valuation Method Summary

The sales comparison approach was used to estimate the value of the land acquired and the value of the larger parcel before the acquisition. The income approach was considered but not fully developed because current lease and rent roll information was not provided. The cost approach was not relied upon as the primary method due to the age and mixed condition of the improvements.

Compensation Breakdown

Compensation Component	Appraiser's Opinion	Notes
Value of part taken - fee acquisition	$300,000	Based on 0.84 acres of frontage land at an indicated unit value adjusted for location, access, and commercial utility.
Remainder damages	$100,000	Allowed for reduced site utility, frontage reconfiguration, and minor parking/access impacts after the taking.
Temporary construction easement	$25,000	Based on estimated temporary use period of 18 months and limited construction access along frontage.
Total compensation opinion	**$425,000**	**Rounded total conclusion of just compensation.**

The initial written offer transmitted by the City on January 12, 2026, was $350,000. This appraisal summary supports an appraised compensation amount of $425,000 as of February 1, 2026. The City may rely on this appraisal summary when preparing a final written offer.

Before and After Analysis

Valuation Item	Amount	Explanation
Before value of larger parcel	$3,200,000	Market value of the property before the acquisition, assuming continued commercial retail/service use.
Remainder value before acquisition, excluding part taken	$2,900,000	Calculated for analysis purposes after allocating $300,000 to the part taken.
Remainder value after acquisition	$2,800,000	Reflects appraiser's opinion of $100,000 in remainder damages.
Indicated permanent compensation	$400,000	Value of part taken plus damages to remainder.
Temporary construction easement value	$25,000	Temporary acquisition component.
Total compensation	**$425,000**	**Permanent and temporary components combined.**

Remainder Damages Discussion

The appraiser recognizes some adverse impact to the remainder due to frontage reconfiguration and the closure of Driveway B. The appraiser concluded that the remainder will retain reasonable commercial access after relocation of Driveway A and that the parking count will remain adequate for the current observed use. The appraiser did not assign separate compensation for business interruption, tenant claims, or loss of profits.

Comparable Sales Summary

Sale	Location	Sale Date	Size	Adjusted Indication
Comp 1	East Parmer Lane corridor, Austin	Aug. 2025	4.90 acres	$7.85/SF
Comp 2	Dessau Road commercial frontage	Sept. 2025	6.20 acres	$8.10/SF
Comp 3	Howard Lane redevelopment site	Nov. 2025	3.75 acres	$8.45/SF
Comp 4	Braker Lane service retail tract	Dec. 2025	5.15 acres	$8.30/SF

The appraiser selected an indicated land value of approximately $8.20 per square foot for the subject frontage area after considering location, size, access, zoning, and project influence. The unit value conclusion was rounded and applied to the fee acquisition area as part of the before-and-after analysis.

Assumptions and Limiting Conditions

1. The legal description and acquisition areas provided by the City and its surveyor are assumed to be accurate.

2. The appraisal assumes the project is lawful and that the City has authority to acquire the property rights described in the right-of-way materials.

3. The appraisal assumes that environmental conditions do not materially affect market value unless specifically identified in the documents reviewed.

4. The appraisal assumes one commercially reasonable driveway connection will remain available after construction.

5. The appraisal does not include compensation for business damages, lost profits, relocation expenses, or tenant-specific claims unless such items are recognized as compensable real property impacts under applicable law.

6. The appraisal summary does not include a full review of private leases, rent rolls, title exceptions, or engineering design alternatives because those materials were not provided to the appraiser.

Documents Reviewed

Document	Date	Notes
Initial Offer Letter - Parcel 14	Jan. 12, 2026	Initial written offer of $350,000.
Landowner Bill of Rights Transmittal	Jan. 12, 2026	Transmittal by certified mail and email noted in project file.
Right-of-Way Map, Sheet 14	Jan. 6, 2026	Used to identify frontage taking and easement area.
Parcel Plat Summary, Lone Star Surveying, Inc.	Jan. 15, 2026	Acquisition area and remainder area assumed accurate.
Site Inspection Notes	Jan. 28, 2026	Observed retail/service use, parking, access, and frontage improvements.
Travis Central Appraisal District Record	2025 certified values	Used for ownership and property identification only, not as market value evidence.

Documents Not Reviewed or Not Provided

Document or information	Effect on analysis
Full lease file and current rent roll	Income approach was considered but not fully developed. Tenant-specific parking or access requirements were not verified.
Complete appraisal work file	This summary omits detailed sale sheets, photographs, adjustment grids, and supporting calculations.
Final written offer	Not available as of this appraisal summary date. A final offer is expected after appraisal review.
Construction phasing plan	Temporary construction easement value assumes 18 months and limited access disruption based on project manager input.
Independent owner appraisal	No competing valuation opinion was available to the appraiser as of February 5, 2026.

Appraiser Certification Summary

I certify that, to the best of my knowledge and belief, the statements of fact contained in this appraisal summary are true and correct for purposes of this fictional sample. The analyses, opinions, and conclusions are limited by the assumptions and limiting conditions stated in this document. This summary is not a real appraisal report and must not be relied upon for any actual transaction, litigation, or governmental acquisition.

The appraiser's compensation conclusion for Parcel 14 is summarized as follows:

Value of part taken	$300,000
Remainder damages	$100,000
Temporary construction easement	$25,000
Total compensation opinion	**$425,000**

Respectfully submitted,

Diane K. Porter, MAI
State Certified General Real Estate Appraiser
Texas Certification No. TX-1387421-G
