

EXHIBIT B

PARCEL PLAT SUMMARY - PARCEL 14

East Loop Road Expansion Project | City of Lone Star, Texas | Travis County

Document Purpose

This Exhibit B Parcel Plat Summary is a simplified narrative and visual summary of the proposed acquisition affecting Parcel 14. It is intended to accompany the Petition in Condemnation filed on March 18, 2026. This summary is not a metes and bounds legal description and is not a substitute for a signed and sealed survey.

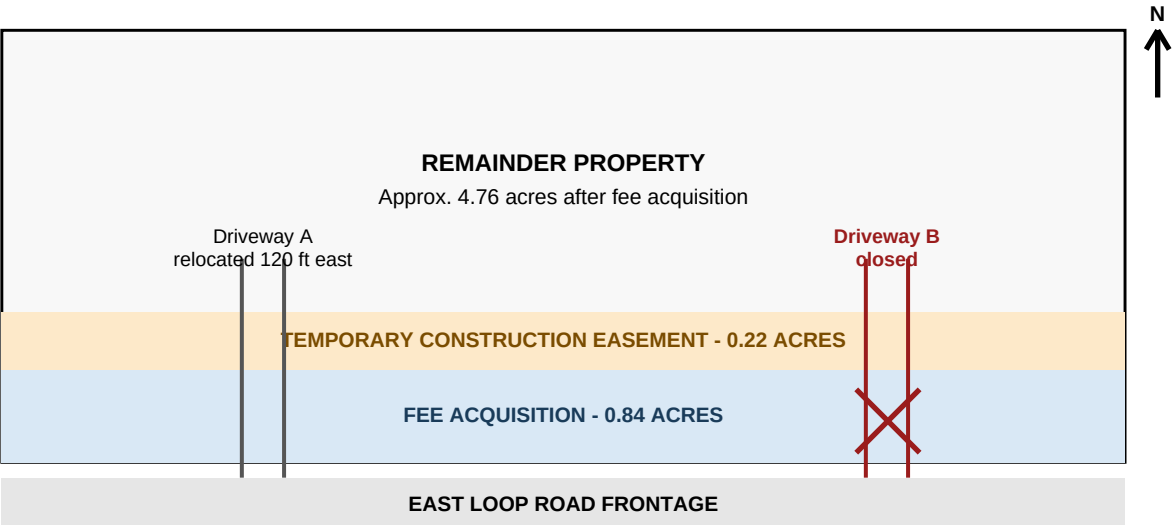

Parcel	Parcel 14
Owner	Ramirez Family Holdings, LLC
Property Address	1842 East Loop Road, Lone Star, Travis County, Texas 78744
Appraisal District Account	04-2198-0314
Existing Tract Size	Approximately 5.60 acres
Project	East Loop Road Expansion Project
Petition Filing Date	March 18, 2026

Acquisition Summary

Property Interest	Approx. Area	Purpose / Notes
Fee simple acquisition	0.84 acres	Frontage strip along East Loop Road for roadway widening, sidewalk, drainage, utility relocation, and related public improvements.
Temporary construction easement	0.22 acres	Temporary work area adjacent to the fee acquisition for grading, driveway reconstruction, drainage work, staging, and construction access.
Remainder property	Approx. 4.76 acres	Commercial remainder retained by owner after the fee acquisition. Remainder will continue to front East Loop Road but with modified driveway access.

Simplified Parcel Diagram

Diagram is a simplified summary for document review. Not a survey or legal description.

Legend: blue area = fee acquisition; tan area = temporary construction easement; gray band = East Loop Road frontage. Diagram is approximate and intended to show relative location only.

Access and Site Configuration Notes

Item	Existing Condition	Proposed Condition / Impact Noted
Driveway A	Western driveway currently provides customer and service access from East Loop Road.	Driveway A will be reconstructed and relocated approximately 120 feet east of its current location.
Driveway B	Eastern driveway currently provides secondary ingress and egress for delivery vehicles and tenant traffic.	Driveway B is shown as closed after project construction.
Parking	Site plan reviewed by the City shows 58 striped parking spaces before acquisition.	Conceptual layout after acquisition shows approximately 44 parking spaces, a reduction of 14 spaces.
Truck circulation	Delivery trucks currently use Driveway B and the front drive aisle for turning movements.	Turning movements may require redesign after Driveway B closure and frontage acquisition.
Frontage	Property has continuous frontage along East Loop Road.	Frontage remains but the front setback and paved area are reduced by the fee acquisition and construction easement.
Drainage	Existing drainage swale runs near the front property line.	Project plans show a new drainage inlet and underground line within or adjacent to the acquisition area.

Remainder Description

After the fee acquisition, the remainder property is estimated at approximately 4.76 acres. The remainder will continue to be used as a commercial frontage tract, subject to modified access, reduced parking, and construction activity within the temporary construction easement. The remainder is expected to retain access to East Loop Road through reconstructed Driveway A. Driveway B is not shown as remaining open after project completion.

Temporary Construction Easement Notes

The temporary construction easement is shown immediately behind the proposed fee acquisition area. The easement is described as needed for grading, driveway reconstruction, temporary access, drainage work, utility relocation, and staging of equipment. The easement is expected to expire 24 months after the date possession is granted or upon completion of construction on Parcel 14, whichever occurs first, unless extended by written agreement or court order.

Documents and References

Reference	Status in Current Matter File	Notes for Extraction
Exhibit A - Metes and Bounds Description	Referenced but not included in this PDF	Flag as missing if not separately uploaded.
Exhibit B - Parcel Plat Summary	Included	This document provides the simplified parcel summary.
Exhibit C - Temporary Construction Easement Terms	Referenced but not included in this PDF	Flag as missing if not separately uploaded.
Construction Phasing Plan	Not attached	Owner requested this document in March 4, 2026 email.
Driveway Reconstruction Detail	Not attached	Needed to evaluate access impact.

Extraction Test Notes

The following facts are included intentionally to support automated extraction and testing of the Eminent Domain Case Assessment workflow:

- Parcel 14 affects 1842 East Loop Road in Travis County, Texas.
- Existing commercial tract size is approximately 5.60 acres.
- Fee simple acquisition is approximately 0.84 acres.
- Temporary construction easement is approximately 0.22 acres.
- Remainder property after the fee acquisition is approximately 4.76 acres.
- Driveway A will be relocated approximately 120 feet east.
- Driveway B is shown as closed after project completion.
- Parking is reduced from 58 spaces to approximately 44 spaces, a reduction of 14 spaces.
- Exhibit A and Exhibit C are referenced but not included here.
- Construction phasing and driveway reconstruction details are not attached.
